

Question Review Form

Cover up the answers and the actual question being asked. Then read through the stem and answer #1-6.

1. What is the most likely diagnosis for this patient?

2. What is the specific clinical scenario and/or severity of this disease?

For example, if the disease was depression, the specific clinical scenario could be: uncomplicated depression, depression in the elderly, depression with history of mania, depression with suicidal ideation, etc.).

3. What factor(s) support your diagnosis?

4. What factor(s), if any, are inconsistent with your diagnosis?

5. How confident are you that the patient has the diagnosis you listed in #1?

Not at all confident	Slightly confident	Moderately confident	Quite confident	Extremely confident
----------------------	--------------------	----------------------	-----------------	---------------------

6. How confident are you in your assessment of the specific clinical scenario/level of severity you listed in #2?

Not at all confident	Slightly confident	Moderately confident	Quite confident	Extremely confident
----------------------	--------------------	----------------------	-----------------	---------------------

Uncover the question (e.g., "What is the next best step in management?") but keep the answers covered.

7. What is the learning objective for this question? (E.g., "Manage an acute COPD exacerbation.")

8. How confident are you in your assessment of learning objective?

Not at all confident	Slightly confident	Moderately confident	Quite confident	Extremely confident
----------------------	--------------------	----------------------	-----------------	---------------------

9. Before looking at the answer choices, what is your answer to the question?

10. How confident are you that your answer will be correct?

Not at all confident	Slightly confident	Moderately confident	Quite confident	Extremely confident
----------------------	--------------------	----------------------	-----------------	---------------------

Question Review Form

Now uncover the answer choices.

11. Does your predicted answer (or something close to it) appear in the answer choices?

- Yes
- No

12. Indicate your final answer here: _____

13. How confident are you in your answer now?

Not at all confident	Slightly confident	Moderately confident	Quite confident	Extremely confident
----------------------	--------------------	----------------------	-----------------	---------------------

Now look up the correct answer.

14. Did you answer this test question correctly?

- Yes
- No

15. Why or why not? Whether or not you got the item correct, what else do you need to learn?

Did you know the exact reason why the right answer was right? Did you know why each fact in the stem was consistent or inconsistent with the clinical scenario? Do you know why the wrong answers are wrong? Compare your reasoning to the explanation provided in the answer key. Use this space to document the gaps in your knowledge or strategic approach that were identified by this particular test question.

16. What is your plan to improve so that you can get this or a similar question right in the future?

Based on your reflections above and knowledge of your own learning style, identify a concrete, specific, manageable study plan for putting the information you need to learn into your memory for the long term.
